

PHARO Token Whitepaper

Introduction:

PHARO Token is a next-generation meme coin built on the Binance Smart Chain (BSC). Inspired by the legendary power of the Pharaohs, PHARO aims to unite a vibrant community with strong branding, transparent tokenomics, and long-term utility.

Tokenomics:

- Name: PHARO
- Symbol: PHARO
- Chain: BNB Smart Chain (BSC)
- Total Supply: 1,000,000,000 PHARO
- No Tax at Launch

About Us At PHARO Token,

we are building more than just a digital asset — we are creating a community-driven ecosystem inspired by the strength and legacy of ancient civilizations. Our mission is to provide holders with a reliable, transparent, and innovative token that combines utility with long-term value. We believe in trust, transparency, and growth. That's why we focus on securing liquidity, clear communication with our community, and delivering a realistic roadmap that brings continuous development. The PHARO Token project is designed for sustainability. From day one, our priority has been building credibility — verified smart contracts, locked liquidity, and active community engagement.

Our Team

Loay M. Founder – Project Lead: Oversees strategy, partnerships, and delivery across the PHARO ecosystem with a focus on transparency and long-term value.

Mohamed H. – Marketing Manager: Responsible for driving brand awareness and community growth. Manages social campaigns, partnerships, and ensures that PHARO Token reaches new audiences worldwide.

Ayman A. – Blockchain Developer: The technical architect of PHARO Token. Specializes in smart contract development, security auditing, and blockchain integration to keep the project transparent and future-ready.

Mohamed N. – Design & Creative Lead: Crafts our visual direction—from branding to user experience—for a professional and appealing presence.

PHARO Roadmap (Updated)

Phase 1 – Foundation (Q3 2025)

- Smart Contract creation verification on BscScan
- Launch on PancakeSwap (PHARO/BNB pool)
- Initial liquidity locked token supply secured
- Official Website + Whitepaper release
- Launch of Telegram, Twitter, and Coinmooner listing
- Publish team section + project transparency updates
- Introduction of PHARO NFT Collection (Pharaohs Ancient Egypt theme) Only purchasable using \$PHARO

Phase 2 – Community Growth (Q4 2025)

- Partnerships with NFT marketplaces and blockchain projects
- Expanding Telegram & Twitter community with AMAs & Giveaways
- Marketing campaigns and collaborations with crypto influencers
- Additional liquidity injection and long-term LP locks • First Token Burn Event (in october) to reduce supply & increase scarcity

Phase 3 – Utility Launch (Q1 2026)

- Development and launch of PHARO Staking (Vault) → Holders can lock PHARO tokens and earn rewards
- Integration of PHARO DAO (Governance Voting) → Community-driven decisions (burn %, roadmap updates, utilities) CoinGecko & CoinMarketCap application submission

Phase 4 – Adoption & Ecosystem (Q2 2026)

- PHARO Pay pilot project: enabling payments with \$PHARO for selected services and digital products
- PHARO mini-game (play-to-earn prototype using \$PHARO)
- Listing on Tier 2 centralized exchanges
- Expanded roadmap for 2026 with focus on real-world adoption

 Vision To build the first Egyptian-inspired token with true blockchain utilities: staking, NFTs, governance, payments, and gaming — all powered by \$PHARO.
